THE DEMOCRATIC CLUBS.

MEETING OF THEIR REPRESENTATIVES IN BALTIMORE.

A Jeffersonian Gavel Presented to the Chairman—The Republican National Notification Committee Calls on General Harrison at Indianapolis.

BALTIMORE, July 6.—The National committee of Democratic clubs in this city brought nearly three hundred delegates here Wednesday. The day's session was merely preliminary, but it called forth a splendid speech from F. C. Russell, mayor of Cambridge, Mass., and one from Charles R. Ogden, of Omaha. Ohio contributed among officers and committeemen the following:

Vice-president, J. M. Kammeron, Cincinnati; secretary, J. E. Bloom, Cincinnati; on credentials, W. A. Taylor, Columbus; on resolutions, H. F. Booth, Columbus; on permanent organization, Fred Kilmer, Cincinnati; on permanent organization of the league, D. C. Ballentine, Springfield.

The delegates to the convention of Democratic clubs were slow in arriving at the hall Thursday morning, owing, doubtless, to the intense warm weather and the late hours kept by the various committees. The hour appointed for reassembling was 10 o'clock sharp, but it was 10:35 before the chairman called it to order. Meantime Hon. John R. Fellows, of New York, made his appearance in one of the boxes. He was cheered to the echo, and the delegates did their best by shouting "Fellows!" "Fellows!" to have him make a speech. The demonstration continued for five minutes, but Mr. Fellows was obdurate and declined.

Finally Chairman Russell brought his gavel down on the desk and the convention went to work. The first business was the reading by the secretary of the report of the committee on credentials.

It showed representation as follows: Alabama 8 clubs, California 3, Colorado 3, Connecticut 2, Delaware 4, Florida 1, Georgia 1, Illinois 48, Indiana 6, Iowa 1, Kansas 3, Kentucky 3, Louisiana 2, Maine 1, Maryland 71, Massachusetts 7, Michigan 8, Minnesota 4, Mississippi 1, Missouri 3, New Hampshire 2, Nebraska 26, New Jersey 19, New York 20, North Carolina 10, Ohio 49, Pennsylvania 20, Rhode Island 4, South Carolina 2, Vermont 1, Virginia 19, West Virginia 21, Wisconsin 7, District of Columbia, 6.

In addition to these, representatives are present from the National Independent Colored Political union and Negro Democratic National league. The report was adopted. L. R. Coffan, chairman of the committee on permanent organization of the convention, then made his report, which was unanimously adopted.

The report recommended, for permanent president of the convention, Hon. John Winans, of Wisconsin, and the retention as officers of the permanent convention, the reading clerk, secretaries, stenographers, sergeant-at-arms of the temporary organization, with the addition of a vice president and assistant secretary from each state. Chairman Russell appointed L. R. Coffan, of West Virginia; Sidney Clarke, of Kansas, and J. N. Tuttle, of Wisconsin, a committee to escort Mr. Winans to the chair. Mr. Winans was warmly received, and addressed the convention for a few minutes.

The committee on resolution then submitted its report, which was adopted. H. A. Booth, of Ohio, then introduced R. A. Jones, colored editor of the Cleveland Globe. Mr. Jones was received with great applause. Mr. Jones presented to the convention a gavel made from wood taken from the house of Thomas Jefferson, in behalf of the negro Democrats of the United States. Three cheers were given for the colored editor. The chairman, in receiving the gavel, said it was a thing of beauty and would be a joy forever.

The rules were then suspended and the following passed with a hurrah:

"RESOLVED, That this convention sends congratulations and greetings to the veterans of the north and south who have recently commingled in a spirit of harmony and patriotism in the historic field of Gettysburg and views with profound emotion and gratitude, the unity of the blue and the gray."

The committee on permanent organization of the National Association of Democratic Clubs then made its report, which was adopted unanimously, and calls were made for Chauncey F. Black, the new president of the association. Mr. Black was escorted to the platform by Col. Douglass, of Maryland. It was two minutes before Mr. Black was able to proceed.

GENERAL HARRISON

Officially Informed of His Nomination by the Notification Committee.

INDIANAPOLIS, July 6.—Yesterday, in his own home, surrounded by his family and friends, Gen. Harrison received the formal announcement of his nomination for the presidency. At 10 o'clock in the morning the delegates comprising the notification committee met in the parlors of the New Denison hotel. Hon. M. M. Estee, of California presided.

Thirty-three members of the committee were present. Ex-Governor Charles Foster, of Ohio, and Hon. Logan H. Root of Arkansas, were placed in nomination for vice chairman of the committee, but both declined in favor of H. A. Potter, of New Jersey, who was unanimously chosen. The address to Gen. Harrison having been signed by each member, the committee placed itself at the disposal of the local committee of arrangements, Hon. J. N. Huston, chairman. The delegates, escorted by the local committee of arrangements, arrived at Gen. Harrison's residence at a quarter to 12. Mr. Russell Harrison and Capt. M. G. McLean met the delegates at the door and escorted them through the hall into the parlor, being the center room between the drawing-room and the library. In the latter rooms and hall were crowded the friends and neighbors of Gen. Harrison, including many ladies. After all had taken their places Chairman Estee stepped forward and in excellent voice and emphasis made the speech of notification. Gen. Harrison then responded in a short speech closing as follows.

"As soon as may be possible I shall, by letter, communicate to your chairman a more formal acceptance of the nomination; but it may be but proper to say that I have already examined the platform with some care, and that its declarations, to some of which your chairman has alluded, are in harmony with my views."

"It gives me pleasure, gentlemen, to receive you in my home, and to thank you for the cordial manner in which you have conveyed your official message."

Long and hearty applause echoed through the house as Gen. Harrison instantly became the genial host, while Chairman Estee, acting as master of ceremonies, introduced each member of the committee as they passed before the general and the ladies.

The committee will meet in New York at the Murray Hill hotel, Saturday, to arrange a program for the notification of Hon. Levi P. Morton.

The following dispatch was received from Mr. Morton to Vice Chairman Potter:

"RHEIN CLIFF, N. Y., July 4.

"Henry A. Potter, vice chairman: 'I shall be pleased to see the committee at my residence, Rhein Cliff, at any hour on Saturday or Monday next, convenient to them. Kindly inform me of your pleasure and time of arrival.' LEVI P. MORTON."

THE IRON LOCKOUT.

It is Quite a Contrast From the Strike of 1882.

PITTSBURG, July 6.—The present iron lockout presents a curious and important contrast to the great iron strike of 1882. At that time the nailers, as well as the iron and steel workers, demanded an advance, and all the nail factories were closed down on a strike. This year the nail manufacturers did not go in with the Association of Manufacturers of Iron, Steel and Nails in demanding a reduction in wages, and presented no scale, signing the scale of the Amalgamated Association of Iron and Steel Workers, without question, and the factories are running as usual.

The eastern and western nail manufacturers, at a meeting in Pittsburgh in the early part of last month, agreed upon a uniform scale of prices, and practically formed a joint pool for the maintenance of these prices. To amalgamate with the iron and steel men, as while nails can be maintained at \$1.90 and \$2.30, the present rate of wages can be paid.

The Amalgamated Association counts on this source for deriving revenue to maintain the resistance against a reduction and considers that it has entered the present conflict much better prepared to secure victory than in 1882, when it was necessary to fight the nail manufacturers as well.

PRISON FESTIVITIES.

Columbus, Ohio, Convicts Given a Day of Pleasure.

COLUMBUS, O., July 6.—The convicts, numbering 1,400, in the penitentiary, listened to addresses and music in the prison chapel at 8 a. m. on the Fourth. Afterward they were turned loose to enjoy themselves as they pleased with the friends and relatives who visited them. They were served with an excellent dinner, and a minstrel performance by the prisoners closed the day. Only "Blinker" Morgan and Ebenezer Standard, the murderers condemned to death, were kept in solitary confinement.

Part of a Town Burned.

ELLCOTT CITY, Md., July 6.—A fire broke out here and destroyed a part of the town. It originated in G. Butke's stable, on Hilton avenue, and communicated to other stables adjoining, owned by Mrs. Kate Fiesler and Mr. Tahler, thence to a large brick building owned by John French. The whole row of stables on the back street then took fire and burned, together with large quantities of feed and hay. The dwellings on the opposite side of the street of P. Morningstar, James Meads, J. Krauter, Matthew Powers and John Mahon were burned. The fire was fought by a bucket brigade until the arrival of an engine from Baltimore. At midnight the fire was under control.

Ballooning at Sea.

BOSTON, July 6.—The balloon which ascended from the common at 6 o'clock Wednesday evening descended in the harbor off Point Shirley. The occupants were submerged and for three miles or more were dragged through the water at a rapid pace by the balloon, which was impelled by a strong gale. They were sighted by the steam yacht Rose G, and the latter, after a stern chase, succeeded in overtaking the balloonists and making fast the drag rope to her capstan. After much trouble the party were aken aboard and all were safely brought to this city. The journey was a most perilous one and the escape from death of the excursionists miraculous.

There Seem to Have Been a Mistake.

GREENSBURG, Ind., July 6.—A sensation was created here this morning when it was learned that Will Winchester, a civil engineer of this city, had been arrested by the United States secret service force at Cleveland, O., on the charge, as they claimed, of having passed a hundred-dollar counterfeit bill in that city on decoration day. A mistake has been made, for many of our best citizens remember seeing him on that day in this city. They also saw him at the opera house on the night of the 30th of May. He left here a few days ago to look after some explosive material for shooting gas wells, and was nabbed by an officer at Cleveland.

The American Party.

SAN FRANCISCO, Cal., July 6.—Although the state convention of the American party meets to-day in this city, few, if any, delegates from the interior have yet arrived. The sentiments of members of the party interviewed is strongly in favor of putting Abram S. Hewitt in the president and nominating a candidate for governor in this state and delegates to the National convention will be instructed to vote for Hewitt, and prominent delegates will try to secure an endorsement of Harrison but their efforts are not likely to prove successful.

Fell From His Balloon.

EVANSVILLE, Ind., July 6.—During a balloon ascension at the celebration Wednesday, the balloon collapsed and Professor Tolbert, the aeronaut, fell a distance of nearly one hundred feet and received some bad bruises. He landed in the fire pit from which the balloon was inflated, and was badly burned before he could be pulled out.

A STORM CAUSES A PANIC

AT THE CELEBRATION AT CEDAR RAPIDS, IOWA.

In the Rush for Shelter a Number of Persons are Seriously Injured—Considerable Damage Done to Buildings and Crops in Iowa and Illinois.

CEDAR RAPIDS, Iowa, July 6.—A panic was created here Wednesday at the celebration in May's grove on the west side. A storm much like a cyclone struck terror to the hearts of 5,000 people assembled, and pandemonium reigned for an hour.

The Milwaukee bridge, leading to the grounds, was crowded with a mob of men, women and children, pushing and yelling and crying. Mothers lost their children. The stairway leading to the bridge broke, seriously injuring a number of persons, though none fatally.

Specials from various points show that a cyclone was general throughout Iowa. The wires are down and nothing definite can be ascertained.

At Connelburg the roof of the Burlington depot was blown off and the wind mill of the same road, with the wind mill and water tank of the Milwaukee road blown down. The Catholic church was unroofed and a dozen smaller buildings demolished. The loss is about \$6,000.

At Belmond, the depot roof of the Burlington road is gone and a number of houses blown down.

At What Cheer, the cyclone blew down the Burr Robbins show tent.

The town of Algona is reported to have been blown away.

In Jo Daviess County, Illinois.

GALENA, Ill., July 6.—A terrible wind and rain storm prevailed in this section Tuesday night. Telegraph and telephone wires were prostrated, many fences, fruit trees and small outhouses were blown down and much damage done to growing crops on side hills and low ground.

The Severest in Years.

MASON CITY, Iowa, July 6.—The severest storm here for years swept over this county Tuesday. Corn, which has been growing rapidly, is badly damaged. A number of buildings were unroofed, and a number of horses and cattle standing near wire fences were killed.

Rain Followed by a Scorching.

PAXTON, Ill., July 6.—There was a heavy rain here Tuesday night, followed by another excessively hot day, the thermometer, which has been in the nineties for several days, reported 99 degrees in the shade.

A GRAND STAND GIVES WAY

Beneath the Weight of Hundreds at a Mississippi Fair—Many Injured.

MEMPHIS, Tenn., July 6.—While 300 or 400 people were seated in the grand stand on the grounds of the Yallabush County, Mississippi, Fair association, Wednesday the supports gave way without warning and the structure fell to the ground. Men, women and children were imprisoned or crushed under the heap of debris, and were screaming for release. The crowd, estimated at 1,500, worked heroically in tearing away the wreck, and soon all the wounded and imprisoned were released. No one was killed outright, though many were badly crushed and had limbs broken. The building which fell was a new grand stand, had not been finished more than a month, and was considered perfectly safe.

Racing on the Waters.

PHILADELPHIA, July 6.—The regatta on the National course proved a grand success and was witnessed by thousands. The races opened with the Junior scullers and was won by S. C. Brown, Farragut Boat club, Chicago, Ill., in 11:48.

Senior scullers was won by G. Psotto, Cornell college won in 10:25. Four-oared rigs, Triton Boat club, of Newark, won in 10:10 3/4.

Four-oared shells, Union Boat club, of New York, won in 10:40.

Four-oared shells for the Downing cup. Cornell college won. Time 10:36.

Double scullers. Nonpareil Boat club, of New York, won. Time 10:10.

Eight-oared shell, for the Sharpless cup, College Boat club won. Time 8:38 1/4.

A Farmer Murdered.

WARREN, Minn., July 6.—Joseph Tomawoki, a wealthy farmer at Wanger, was found murdered in the woods last Sunday. A. Neysen, who had been with him shortly before, denies all knowledge of the crime. Yesterday Mr. Tomawoki was buried. At the grave Neysen broke down and confessed that he had killed his uncle. He said he killed him in the hope that he would get a bullet out of tin foil from tobacco packages and while they were in the woods shot his uncle in the back.

An Aeronaut's Close Call.

SPRINGFIELD, Ill., July 6.—Professor Domez, who made a balloon ascension here Wednesday afternoon, had a narrow escape from a horrible death. When the balloon had reached a height of about six hundred feet it suddenly collapsed and started downward with lightning-like rapidity for several hundred feet. It then partially filled, checking its descent, and the professor alighting in a church yard, escaped with slight bruises and a bad shaking up. Several thousand people witnessed the accident.

Annihilated by Lightning.

FARGO, Dak., July 6.—During a storm last week a Norwegian family, living about eight miles north of this place, were killed by lightning. The husband, wife and an eight-month-old baby lived in a sod shanty about a quarter of a mile from any neighbors. A neighbor found the man and woman burned almost beyond recognition and the child apparently unharmed.

Will Not Close Down.

MARQUETTE, Mich., July 6.—There is no truth in the report that the French syndicate which controls the output of the great Calumet and Hecla mine are about to close the mine for a time. The syndicate simply holds a contract limiting the output for three years. The mine is being unwatered at the rate of ten feet per day.

They do not usually make a show of their offspring, but were prevailed upon to help a church picnic by putting her on exhibition.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

FRIDAY EVEN'G, JULY 6, 1889.

RAILROADS are pushing out in all directions through Kentucky and there are signs of rapid improvement. The grand old Commonwealth has held back about as long as possible and from now on there will be a new era. Kentucky towns must soon grow, like the Western towns have. Indeed many towns in our State are already showing wonderful life and activity. Maysville ought to, and will, join the procession, and keep up with it, too, if there is proper, well directed attention given to the matter. We possess every natural advantage for any sized city and at last all, or nearly all, the acquired advantages for a modern metropolis. What is needed now, is to let this be known far and wide and so encourage the location here of all sort of manufacturing plants, both big and little. Stores never build up a town, they only supply the wants of a town already built. Towns never go to the stores, the stores come to the towns. It is mills, factories and shops that make cities. In a word it is the producing element that counts in the make up of a city. If Maysville is to have a future at all she must cultivate her manufacturing interests, and her prosperity must spring from them and be due to them. Now a valuable modern acquisition to a real live town is a well organized Commercial Club whose object will be by concert of action to take all necessary steps to promote the business welfare of this city and county. It is the duty of such a club to give proper encouragement to manufacturers who may be considering the advisability of locating amongst us, and also to see that the city's advantages are properly presented to the world. Such an organization is needed right here in Maysville and at this time. We not only want to bring capital to Maysville but we also want our local capital that is being hoarded up in banks and invested outside of the State, to be invested in home industries that will not only enrich the investor, but give steady employment to honest labor and thereby contribute to the up-building of our city that we all profess to love so well.

The result of the November election will be largely decided by the votes of young men. They are chiefly interested in bringing the country back to a condition in which the opportunities for fame and fortune will be more nearly equalized. Our young men should see to it that the young Republic shall not drift into that condition in which money counts for more than brains, and in which legislation constantly tends to the exaltation of rich men, rich corporations and established monopolies at the expense of the masses and to the discouragement of individual force and activity. It seems impossible that the young men of this country can be cajoled into a belief that universal betterment may grow out of taxation, and that the mere ledger-deman of taking a dollar out of the pocket of one man and putting it into the pocket of another man is a means of adding to the wealth of both and the prosperity of everyone else.

CONGRESS has just enacted a law, which has been signed by the President and declares that all envelopes or wrappers or postal cards are unmailable upon which are printed any indecent, scurrilous or threatening epithets or language reflecting injuriously upon the character or conduct of another. The Post Office Department promptly improves upon this law and instructs its Postmasters that "anything in the nature of an offensive and threatening document upon an envelope, outside cover or postal card, or conveying the suggestion that such document is enclosed, will be excluded as non-mailable under this act."

It is stated that this country consumes \$3,000,000,000 worth of home manufactured products annually. The average tariff duty is 47 per cent. If the manufacturer only receives 40 per cent. of this protection, then he would get the handsome sum of \$1,200,000,000 from the people in the way of increased prices for his goods each year. This would be \$20 each from every man, woman and child in the country. No wonder there are many millionaires in this land since protection allows them to levy such a tribute upon the people.

The monopoly and trust defenders in Congress are fighting hard for their friends. Free lumber was an issue the other day, and the lumber trust was backed by the Republicans, but the Democrats believed that the public would be benefited by taking off the tax of \$2 a thousand on lumber, and so it remains on the free list, and if the bill becomes a law the people will not be taxed on their homes for the benefit of the millionaire members of the lumber trust.

COLONEL SAMUEL A. WALTON, Chief Clerk in the First Comptroller's Office at Washington City, came in on the train last night en route to Germantown to visit his parents, Mr. and Mrs. John H. Walton.

It is not generally known that the last Legislature passed a general act relative to school matters. This act gives any white school district the privilege of voting "any sum, not exceeding 70 cents on the \$100 and \$2 on the head."

It is now the season of the year when thoughtless individuals invade cemeteries and carry away choice plants and flowers from the graves. These persons ought to know that they have no more right to do this than to enter a door yard without the consent of the owner and steal flowers. To rob graves of the beautiful flowers placed there by loving hands as a tribute to the memory of those who rest beneath the sod, shows a spirit of vandalism that ought not to be tolerated in any civilized community.

Stock, Field and Farm.

To keep flies from the stable, suspend cotton waste, pieces of tow, or any other absorbent material, and keep it moist with common carbolic acid, which is very cheap by the gallon, and the odor of which is wholesome.

He is a humane as well as a wise man who covers his horse with a flynet during the active fly season, for the poor beast is entitled to all the relief he can get from the tormenting attentions of the little pests.

At an agricultural meeting the other day "the best way to keep girls on the farm" was discussed. No conclusion was reached, but we think a barbed wire fence six feet high, minus gates, surrounding the farm would solve the problem. A boy takes his life in his hands when he attempts to crawl over or under or through a barbed wire fence, and he doesn't wear a bustle either.

OUR NEIGHBORS.

MAYSVILLE.

The farmers will about get through cutting wheat this week.

J. A. Jackson has some fine late cabbage plants for sale cheap.

Joseph F. Perrie, of Maysville, was seen on our streets last Wednesday.

Thomas Hopper seems to be resting some easier for the last few days.

The painters are putting the finishing touch on Mrs. Morrissey's new building.

Uno J. Peed has rented the R. R. Myall house until he can rebuild on his old homestead.

Colonel A. F. Bowen, boot and shoe man from Cincinnati, was with us last Thursday.

So far as heard from the wheat crop is reported a fine quality, and will make a good yield.

Mrs. Benj. Longnecker left on the K. C. last Tuesday to visit friends in Midway and Eminence.

George Benz and wife left on the K. C. last Wednesday morning to visit friends at Millersburg.

Misses Lucy and Lula Myall, two of our most charming young ladies, are visiting in Germantown.

Professor Collis teacher in the Kentucky University at Lexington was here last week in the interest of that institution.

ONE day last week as Elder T. P. Degman, was riding up Cabin Creek he was met by a man named Truesdale, who said: Elder, here is water, what hinders that I may not be baptized? The Elder replied: "If thou believest with all thine heart, thou mayest." Truesdale answered: "I believe that Jesus Christ is the son of God." They at once dismounted and the Elder baptized him.—Fleming Gazette.

E. W. SNODGRASS, a carpenter in Kansas City, received tidings Wednesday that by the death of his mother in Kentucky he had fallen heir to \$47,000. You girls who have formed the habit of chewing "tola" draw near and listen to these words of wisdom from a scientific source: "The habit of chewing gum in this country is producing a race of hollow-cheeked young women. The constant exercise of the masseter muscle hardens it and removes the fatty covering that conduces to roundness. Not only is the fullness of the cheek destroyed but there is a tendency to wrinkling of the skin, a natural result of the falling away of the parts beneath it."

The Pride of Kentucky.

Mammoth Cave—is beyond the description of tongue or pen, one of those indescribable things that can only be appreciated when seen. No amount of eloquence can paint the awful solemnity of the cave, the grandure of the pits and domes, showing action of water that has been putting in its work for decades, the marble purity of Martha Washington's statue, illusions of the Star Chamber, wonderful reverberations and echoes of Echo River and the interesting blind white fish peculiar to Mammoth Cave. The Cave Hotel is open all the year. The temperature in the caverns never varies, so visitors have privilege of seeing the cave at any season.

Lawyers' Conference.

The lawyers held a meeting yesterday at the office of Wall & Worthington, on Court street. John G. Hickman, Esq., was elected Chairman, and Allan D. Cole, Esq., Secretary. The object of the meeting was to agree if possible on a general continuance of the docket at the July term of the Mason Circuit Court. The subject was argued at some length, nearly all the lawyers being present. After being discussed it was finally agreed to continue generally all the litigated cases on the civil docket. Consent orders and judgments to be entered in cases where there is no contest. The criminal docket only to be tried and disposed of in the usual order of business.

Judge G. S. Wall and A. M. J. Cochran, Esq., were appointed a committee to ask Judge Cole's consent to the result of the meeting and, we understand, Judge Cole has consented.

Clients, witnesses and jurors will no doubt beglad to escape the July term. The weather is too hot to hold much of a court, and the farmers would find it very inconvenient to get away the full term from their crops. The move of the attorneys is a good one.

Personal.

Mr. Will G. Heiser has returned from College at Meadville, Pa.

Mrs. W. E. Grimes has returned from a visit to Flemingsburg and Elizaville.

Doctor E. Paris Wheeler has returned from a fishing excursion up on Kinniconic.

Miss Maggie Finn returned to Brooksville yesterday accompanied by Miss Agnes O'Donnell.

TO RELIEVE EMIN BEY

GERMANY WILL ATTEMPT TO CHECK-MATE THE ENGLISH.

The Jury in the London Times Libel Suit Returns a Verdict in Favor of the Paper.

Americans in London Celebrate the Fourth in Patriotic Style.

BERLIN, July 6.—An expedition is being formed here to relieve Emin Bey. This is the brief announcement of a very significant fact. It means that Germany is resolved if possible to checkmate English enterprise in equatorial Africa. Emin Bey, the title given to Schweitzer, the Austrian, who was Gen. Gordon's surgeon general in Egypt, was by the latter made governor of the equatorial provinces of Africa.

These are assumedly Egyptian provinces, but in reality English, since Egypt is more a dependency of England to-day than of Turkey, and it is the confessed policy of England to make Egypt a dependency. It is a matter of wonder that a German expedition should be organized to go to the aid of Emin Bey, under any circumstances, since if the right of Egypt or England as occupants of the province who have through Emin Bey considerably developed it, and guarded it with ten military stations at one time, is recognized, then it is England and Egypt who should relieve Emin Bey.

Moreover, Egypt has given \$50,000 to supply Emin with ammunition and England has, through private channels, contributed \$100,000 for his relief. It is this money with which Stanley was fitted out with the object of relieving Emin. Moreover, the latest news from Emin, as late as December 18, 1886, indicates that he is not positively in need of relief.

The rumor of a white pasha far to the north of Emin, assumedly Stanley, bent on organizing the Bahr Ghazal provinces for England, probably accounts for the German expedition, whose assumed object, the relief of Emin Bey, is probably a pretense. Germany has recently assumed a protectorate over considerable territory on the east coast, and it is probable that the enterprise of Stanley and Emin Bey jeopardize a desired extension of German territory.

The London Times Libel Suit.

LONDON, July 6.—The trial of the libel suit of Mr. O'Donnell against the Times was resumed to-day. Attorney General Webster, continuing his address, said that no man had been libeled more than Mr. Parnell and yet Mr. O'Donnell was put forward to milt the case. The chief justice intimated that no case had been made for the Times to answer.

Mr. Ruegy, counsel for the plaintiff, thought however, that the case might go to the jury on the note which Mr. O'Donnell mentioned. The chief justice replied: "Very well, if you go on, you will take the responsibility upon yourself."

Mr. Ruegy then asked for half an hour in which to consult his client. Mr. Ruegy decided to address the jury in reference to two instances in which Mr. O'Donnell's name was mentioned in the Times article. Everything else has been abandoned by the plaintiff.

Mr. Parnell denies that any of the Times' letters produced are authentic.

When Mr. Ruegy concluded his address to the jury Chief Justice Coleridge summed up the case strongly against Mr. O'Donnell. He said that if the plaintiff intended his letter to the Times as a vindication of his character, it was difficult to conceive of a weaker protest. The jury returned a verdict for the Times.

An Ambassador's Opinion.

LONDON, July 6.—According to official dispatches received from St. Petersburg, M. De Giers, Russian minister of foreign affairs, informed Sir R. D. Morier, British ambassador, on the 17th of last December, that Bulgarians might do anything and everything they pleased, from cutting each other's throats to declaring Bulgaria an empire, and Russia would not move a finger to prevent them. "Russia," said M. De Giers, "washes her hands of the whole concern." In the opinion of the British ambassador Russia does not intend to provoke war.

Foreign Notes.

Earl Derby was elected leader in the house of lords and Earl Camperdown was elected whip.

The Liberal Unionist peers held a meeting in London Wednesday, and subscribed a large sum to extend the workings of the party.

The Americans in London celebrated the Fourth in patriotic style. Minister Phelps gave a reception at his residence to about six hundred prominent American and English guests, including Governor Waller, Mr. and Mrs. C. Vanderbilt, Sir William Harcourt, the archbishop of Canterbury, the French ambassador, and others. A banquet was given at the American club Wednesday evening, which was largely attended.

Prohibition in Connecticut.

HARTFORD, Conn., July 6.—An official report shows that in prohibition Rhode Island 1,250 persons pay special taxes to the United States government for the privilege of liquor selling. United States government licenses have been issued for Rhode Island this year to 1,207 retail and thirty wholesale liquor dealers, five rectifiers, three brewers, sixteen wholesale and thirty retail dealers in malt liquors. The fees aggregate about \$44,000. Rhode Island, with her prohibitory law, does not get a dollar of revenue from the business.

Monument to Francis Scott Key.

SAN FRANCISCO, July 6.—The Francis Scott Key monument, the gift of the late James McKim, was unveiled Wednesday. The statue, of bronze, executed in Rome, and is artistically to be one of the finest pieces of workmanship in the country. Among those present to witness the unveiling ceremonies were eleven of Mr. Key's descendants. Two of his grand-children drew the cord that lifted the veil from the monument.

NIAGARA CRANKS.

Another Dies in Attempting to Pass Through the Whirlpool Rapids.

NIAGARA FALLS, N. Y., July 6.—Robert W. Flack, of Syracuse, died Wednesday afternoon while trying to make a trip through the terrible Whirlpool Rapids in a life-boat of his own invention. Flack had arranged to have a race through the rapids with Charles A. Percy, who claims that he went through in a somewhat similar boat last summer. The trip was preparatory to the race. Flack left his wife and children at home at Syracuse, but his brother was on hand to see the test.

Flack's last cigar was smoked after dinner

at the New York Central hotel, and appeared to be pretty nervous, but he kept a stiff upper lip, and when he got into the boat Phantom, at the Maid of the Mist landing he seemed to be in pretty good spirits, and remarked as Joe Percy buckled him into the death-trap: "If I should die in this boat it may prevent somebody else from meeting death in the whirlpool."

The Phantom was cut adrift at 3 o'clock and Flack started his propeller wheel, propelled by two cranks inside the boat. Two minutes later he struck the first swell of the rapids. The wave turned him and his boat upside down. The current runs over twenty miles an hour, but Flack's boat was tossed about and turned over so much that over three minutes were required to get to the whirlpool. Three or four times the boat was apparently completely submerged upside down. Finally the boat shot into the maelstrom, and there it stayed for an hour, floating bottom upward, until it neared the Canada shore close enough for swimmers to venture out to get the craft and its dead occupant.

The voyage to death occupied about four minutes. The Phantom kept near the center of the stream, where Flack was continually buried by the breakers. He was alive when near the spot where Capt. Webb ran his head against a rock, but Flack died by strangulation. When near the whirlpool, after his boat had several times been capsized, he responded with a wave of the hand to cheers from the crowd on the top of the banks.

Flack was thirty-nine years old, and was a native of Bristol, England. He came here when twenty-three, and lived for twelve years in Toronto. For four years his home has been in Syracuse, where he has a wife and five children.

ONE HUNDRED AND FIFTY LASHES

Administered to a Hoosier Who Had Slandered His Dead Wife.

NEW ALBANY, Ind., July 6.—Another outrage by the White Caps is reported from Valeno, Orange county, twenty-five miles from this city. Jonathan Cook, who is employed as a farm hand by Elisha Glenning, was the victim. It is claimed that he had slandered his dead wife, who, to all accounts, was a most estimable woman.

After being warned by anonymous communication to desist, and failing to do so, he was visited by about twenty of these self-styled regulators, tied face foremost to a tree, stripped and given 150 lashes on the bare back. Every blow cut deeply into the flesh, and the whipping was the severest ever administered by that organization. He is expected to die.

After this Mr. Glenning was notified not to re-employ Cook, but the former had armed himself in the meantime, and, after abusing them roundly, fired several shots into the crowd, with what result is not known.

Independence Day Accidents.

SANDUSKY, O., July 6.—Max Myers had his arm horribly lacerated and burned by the premature explosion of a cannon. He will probably lose his arm. Albert Platt had both eyes burned out and face and neck frightfully burned by the explosion of a large package of powder which he was carrying, and into which a lighted match fell.

Declines the Honor.

SANDUSKY, O., July 6.—Rev. Dr. William F. Nichols, of Philadelphia, elected assistant bishop of Ohio at the Protestant Episcopal convention, has declined, stating as a reason that duty bids him remain with his present charge.

Only Mild Hazing.

ANAPOLIS, Md., July 6.—Referring to the reported hazing among the naval cadets on board the practice ship Constellation, Superintendent Sampson, of the Naval Academy, says that his information is that the hazing was of a mild type. A court-martial has been ordered, however, and will be convened as soon as the vessel returns to Annapolis, probably in a few days. The punishment for hazing is dismissal from the navy.
